Great service at a well structured and cost-effective price

We were in desperate need for a new and refreshed website for our business network group. Gemma, Mike and the team at @itseeze-knutsford were great with understanding exactly what we needed, including a platform for each of our Members at a well structured and cost-effective price. We now have a great website that provides that platform for both growing our group and the business referral opportunities that it generates and an individual platform for all our Members as well.

I can highly recommend it'seeze Knutsford. My website was lacking quality, professionalism and the ability to market my business. In come Gemma and Mike, not only have they delivered a fantastic website on message on budget and on time, they offer a complete package to guide you through all the marketing needs of your business. Fantastic service I wouldn't recommend anyone else. Thanks guys from all at City Installation and Graphics Ltd

Gemma has been one of the precious stones that we've found in the process of setting up CamperHoliday.

I've had websites designed and set up before which taught me exactly what we did not want.

Gemma, through It'seeze has given us absolutely everything we wanted

- an even better logo
- a really professional website
- a website that it is easy for us to maintain, to change the copy on it
- ongoing SEO and marketing support to help navigate launching a new business.

It's a great package and incredibly, at affordable/start up prices.

Not only is it a great and unique proposition but Gemma is just a pleasure to work with.

Thanks Gemma! [See less](#)

In essence, you've got everything in one place. No paying out for system updates, hosting, domains, email packages etc. Also the ongoing support means you're never left on your own.

We're in it with you.
